## **DETAILED ACTION**

### ***Response to Amendment and Arguments***

1. Claims 1-22 are pending. In view of the definition of asymmetric memory cells in the specification, the rejection of claims 1-4, 6-17, and 19-21 are traversed. The amendment to claim 21 is sufficient to overcome the rejection of claim 21. All claim objections and drawing objections are traversed.

### ***Allowable Subject Matter***

2. Claims 1-22 allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest, *in combination with the other limitations of the claims*, a column of asymmetric memory cells spanning opposing bit lines in alternating orientations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
